12 May 2009

## **Give Your ABS a workout**

*Company launches brand-new printed ABS Sensor Catalogue*

Fuel Parts UK, a market-leading manufacturer and supplier of fuel and emissions components, has taken the wraps off its brand-new printed ABS Sensor catalogue, giving 85% plus coverage of the UK vehicle parc.

The comprehensive 252 page catalogue features a total of over 900 part numbers coupled with over 12,000 applications covering 400 models and features bespoke product sections that will be invaluable to stockists and technicians alike as they explain what certain products do, their failure symptoms and what service maintenance is required when this happens.

Fuel Parts UK purchasing director, Neil Morgan, said: "Product range is key in this growing market. Since our initial launch in 2006, Fuel Parts UK has added over 11,000 listings to the range to give our customers first-rate coverage. As always we have made our catalogue easy to use, with accurate vehicle applications also listing engine details. This ensures the right part, first time."

Fuel Parts UK have a dedicated team that invest a great deal of time and energy, to regularly finding new references and suitable manufacturing partners. The latest developments include sensors for the Nissan QashQai, Smart ForFour, and Ford Mondeo. To keep up to date with new products, visit the company's website at [www.fpuk.co.uk](http://www.fpuk.co.uk).

To obtain a copy of the new Fuel Parts UK printed ABS sensor catalogue, professionals are asked to either contact Anneliese, Sue or Amanda on 01527 835555 or email [salesadmin@fpuk.co.uk](mailto:salesadmin@fpuk.co.uk).
