Fuel Parts UK Featuring AP Clutches

***Now Available - Solid Mass Flywheel Conversion Kit & Concentric Slave Cylinder
For Ford Transit 2.4TDCi***

AP clutches, currently OE on Jaguar, Land Rover, Aston Martin, Lotus, Ford and McLaren, continues to develop new applications. One of their latest references to be released is the dual mass flywheel conversion for the Ford Transit/Mondeo 6 speed application.

This kit is the result of months of research, ensuring that the unit not only has the same drive characteristics as the OE application but is fully BER compliant and has a two year guarantee.

The kit, which comes with a replacement flywheel, clutch cover and driven plate, is also available with the hydraulic concentric slave cylinder. Part Numbers: SFC47001 & CS20054
